# **Bluetongue Disease (BT)**

Analysis of ADIS data since 01/2025

Reporting period: 2025-01-01 – 2025-06-29

Data query: 2025-07-01

AGES DSR

Austrian Agency for Health and Food Safety

### **Parameters**

Data source: ADIS reports (unless otherwise specified)

**Reporting period:** 2025-01-01 – 2025-06-29

Data retrieved on: 2025-07-01 12:33

The dates of the analyses all refer to the confirmation date in

the ADIS reports.

## Content:

- Current status of spread
- Monthly/weekly outbreak numbers
- Distance of outbreaks to Austrian national border
- Monthly spread maps

Contact: statistics@ages.at

#### Note

A BT outbreak is only reported via ADIS if it is a **primary or secondary outbreak** in a disease-free Member State, a disease-free zone or a disease-free compartment. BT outbreaks in NON-disease-free areas, on the other hand, are reported by the Member States in an **annual report** to the European Commission and the other Member States and are therefore **not shown** in the ADIS on the date of the data query.

For this reason, the number of BT outbreaks in a Member State during the query period may be significantly higher than shown.
